BASIC INFORMATION ABOUT PRODUCT FEATURES

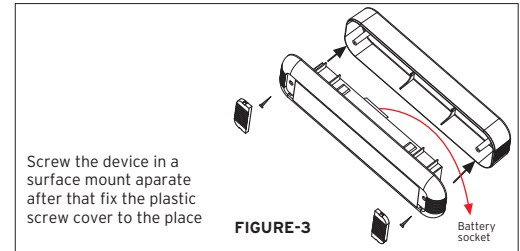

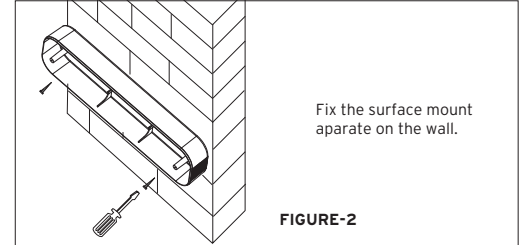

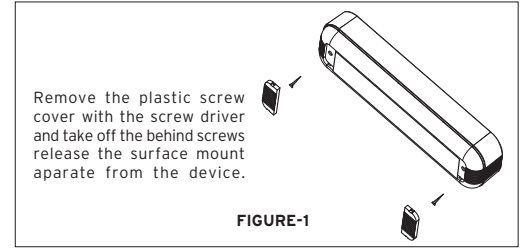

- Meets all necessities in the emergency lighting and directing solutions ,emergency lightings provides the emergency security and prevents the panic in emergency.
- Plain , stylish , quick mounting, easy maintenance.
- Lights automatically when power cut and other type can light continuous and when power cut.
- 130 lumen intensity of illumination at the emergency
- 3 hours continuous lighting
- Two colored LED shows state of battery, if charge is under 2,9 V lights red otherwise green
- Spends less energy with LED
- The product lifecycle: 10 years.

TECHNICAL FEATURES

Operating voltage	230-240V~ 50/60 Hz.
Battery type	3 units 1.2V 2100 mA AH AA Ni-Mh rechargeable battery
Operating battery time	3 hours
Charging time	22 hours
Operating mode	non-maintened (15036 with 36 LED - 16036 with 36 LED) maintened (15136 with 36 LED - 16136 with 36 LED)
Protection class	IP 20 class II
Operating/Ambient temperature	-20 °C ~ +40 °C
Radiated Luminary(1 meter)	130 lumen

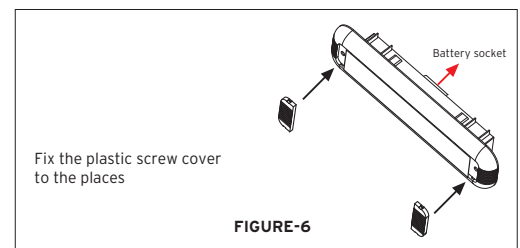

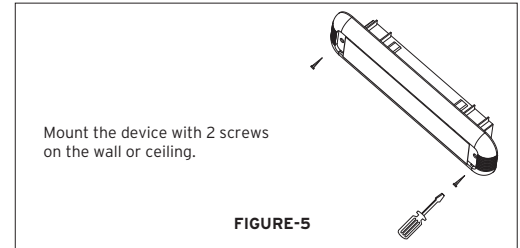

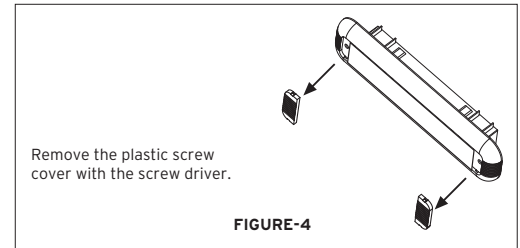

MOUNTING

MODEL : 15036 with 36 LED, 15136 with 36 LED

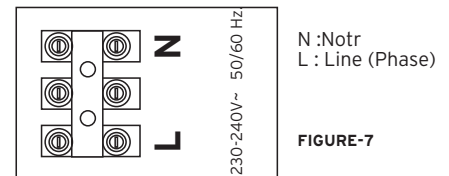

MOUNTING

MODEL : 16036 with 36 LED, 16136 with 36 LED
