MAIN CHARACTERISTICS LUMINARIE

Model LLD-825

SIZE: 780x325x202mm

LAMP: MH/HPS 70W-100W/150W-250W-400W

Body & Top Cover: High Pressure Die-casting Aluminum, Spirit Level applied on bottom casing to reduce lighting pollution

Optical Unit: High Efficiency Performance Aluminum Reflector (95.8%), in IP66

Reflector: High efficiency performance, made in aluminum AA1085, hermetically sealed anodized

Glass: Curved or Flat tempered glass, IK 09

Lamp Holder: Ceramic E27 or E40 with multi-position (1/2/3) support.

Gear Tray: Heat-resistant Nylon materials with stainless steel clips.

Closing: Extrusion Aluminum

Connection (Spigot) to Column: 60mm; 0°-30° degree adjustable system.

Finishing: Standard color (RAL 7035, RAL 7042). other colors upon request

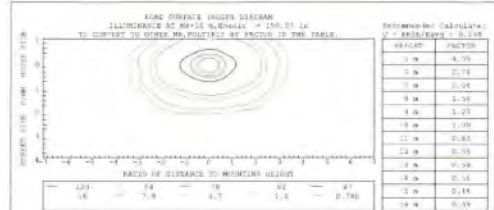

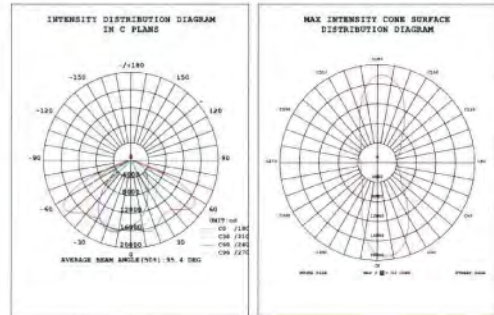

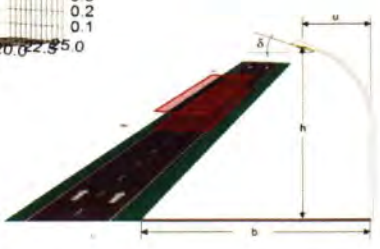

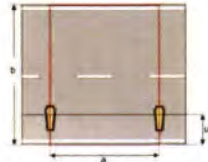

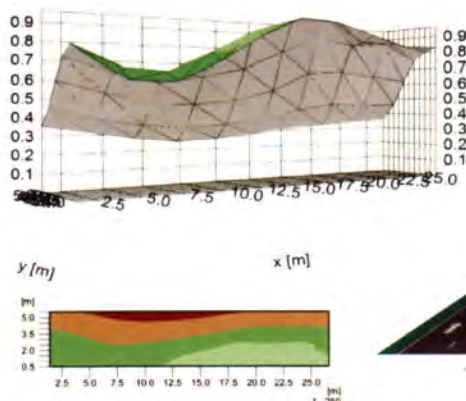

Protection Index: IP66 G.O./ IP 66

Impact Resistance: IK 09

Electrical Class: Class II.

Norm: EN60598 CE

материал
алюминий методом литья под высоким давлением
сталинит
эффективный отражатель
силиконовая прокладка
комплекс нержавеющей стали
степень защиты IP66
цоколь: /E27/E40
сертификат CE

OHIO (Model : LTS - 540)

1-Body and Dome in High Pressure Die-casting Aluminum Consulting other colors

2-Aluminum Latch system, Free Tooling.

3-High Efficiency Performance Aluminum Reflector (95.8%), in IP66

4-Flat or Curved tempered Glass (5mm thickness, IK 09)

5-Heat-resistant Nylon materials with stainless steel clips.

6-Safety mechanism against accidental closing

7-Silicone Gasket, IP 66.

8-Ceramic E27 or E40 with multi-position (1/2/3) support.

9-Isolated Silicone Cable, VDE certificated.

10-304 grade stainless steel clips open/close system, FREE tooling to take Gear tray

11-Electrical Safety Switch

12-Fast Connector

13-Spirit Level Function system to ensure lighting Horizontal Level, reduce lighting pollution

14-Suited to accommodate photocell

15-Without screw Tooling Mechanical system for joints, Free tooling.
